

The Axor range is a classic example for perfectly matching design collections, blending into the most diverse lifestyles and bathroom settings. But what if you still have a special wish? In this case, the Axor Manufaktur will provide you with a solution. This is where Axor products are modified according to you individual ideas, by giving them special surface finishes, extending or shortening the mixers and engraving your initials. The craftsmanship and passion for detail of the Axor Manufaktur helps you to make your bathroom even more personal.

Axor® Manufaktur
custom-made products

Too short? Too long? We make it to suit: if possible, we will also modify the length of your fittings.

Here your Axor fittings will get special surface finishes, even your door handles if you wish – for a completely custom-made bathroom.

Highly individual, in the Axor Manufaktur you can even have your personal initials engraved into the fittings.
